

# Download File PDF Java Programming Language Objective Questions With Answers

#Jenny

Finally I get this ebook, thanks for all these I can get now!

#Rio

Cool! I'am really happy

#Markus Jensen

I did not think that this would work, my best friend showed me this website, and it does! I get my most wanted eBook

#Hun Tsu

wtf this great ebook for free?!

#Che Salsa

My friends are so mad that they do not know how I have all the high quality ebook which they do not!

#Diego Butler

so many fake sites. this is the first one which worked! Many thanks

239. \_\_\_\_\_ is used internally to initialize objects when no constructor is explicitly mentioned
- A default constructor
  - An assignment operator
  - A parameterized constructor
  - A copy constructor
240. The purpose of UML Use Case diagram of UML is \_\_\_\_\_
- Structure and connections of components.
  - Deployment of artifacts to nodes.
  - Procedural and parallel behavior.
  - How users interact with a system.
241. In UML diagram of a class \_\_\_\_\_
- state of object cannot be represented
  - state is irrelevant
  - state is represented as an attribute
  - state is represented as a result of an operation
242. The keyword used to prevent method overriding is:
- static
  - constant
  - protected
  - final
243. \_\_\_\_\_ is supported by method overriding in java.
- Abstraction
  - Encapsulation
  - Polymorphism
  - All of these
244. Encapsulation in object-oriented modeling is useful as \_\_\_\_\_
- It allows improving methods of an object independent of other parts of a system
  - It hides implementation details of methods
  - It allows easy designing
  - encapsulates attributes and operations of object
245. What is the return type of the hashCode() method in the Object class?
- String
  - Integer
  - long
  - Object
